

Dear Valued Customers:

We are writing to inform you that H&K Propane, LLC will begin implementing a yearly minimum non usage fee.

Due to the rising cost in propane tanks, supplies, and materials we have come to the hard decision that we must implement this fee. This fee will be effective immediately and will be charged annually.

It will be required of all customers to use half the capacity of all existing tanks or receive a \$50.00 yearly fee for not meeting this requirement each year. If a property has multiple tanks in separate locations each tank will have to meet the minimum usage for the year, or a fee will be assessed per each tank.

Example: 25-gallon tank minimum usage is 12.5 gallons a year, 50-gallon tank minimum usage is 25 gallons a year, 100-gallon tank minimum usage is 50 gallons a year.

It will not matter what a tank is being used for i.e., generator, cooking, fireplace, hot water, heat pump etc. all tanks will fall under the minimum usage requirements.

We are sorry for any inconvenience that this may incur.

Sincerely,

H&K Propane, LLC
